SHRADHA LAKSHMAN

Vancouver, BC | (613) 850-9228 | shradhamhdvn@gmail.com | shradhalakshman.com

PROFESSIONAL PROFILE

Dental hygiene graduate and licensed dental hygienist with experience in health professions education, curriculum accessibility, community-based oral health, learner mentorship, and digital health education. Interested in designing inclusive, evidence-informed learning experiences that connect clinical practice with community health needs. Developing skills in AI-assisted and agentic software development to prototype small websites and interactive educational tools.

AREAS OF STRENGTH

Health professions education and interprofessional learning • Curriculum development, accessibility review, and learning-material refinement • Oral health promotion and community-based education • Evidence synthesis and structured research • Learner mentorship, facilitation, and presentations • Trauma-informed, culturally responsive communication • Digital health education and interactive-tool prototyping • Documentation, coordination, and stakeholder communication

Digital tools: Microsoft Office; Google Workspace; Figma; RStudio; AI-assisted/agentic coding tools (self-directed learning and small-project prototyping)

PROFESSIONAL EXPERIENCE

Licensed Dental Hygienist (Part-Time) | Aug 2026–Present

Joyce Wu Dental, Richmond, BC

- Provide preventive oral healthcare and patient education in a clinical dental setting.
- Communicate oral-health information and individualized preventive guidance to support patient understanding and self-care.
- Maintain clinical documentation and collaborate with the dental care team.

Collaborative Health Education (CHE) Project Assistant | May 2025 – Aug 2025

UBC Health, University of British Columbia

- Audited accessibility and revised curriculum materials for clarity, usability, and consistency across 2,000+ learners in 14 health programs.
- Co-authored the Interprofessional Education Facilitator Guide (3rd ed.) and contributed to orientation materials aligned with institutional standards.
- Supported the quality and consistency of educational resources used across health programs.

Founder, Eureka: QuestScapes — Youth Digital Health Education Project | May 2024–Present

Independent project

- Developing a gamified, evidence-informed HIV education platform for youth ages 15–24, integrating sexual-health and oral-health literacy.
- Secured more than $2,000 in seed funding and awards to advance the project.
- Led a rapid scoping review of digital HIV interventions and synthesized findings to inform content and product design.
- Translate academic evidence into accessible, youth-facing learning content, with attention to stigma reduction and inclusive communication.
- Building skills in AI-assisted/agentic coding to prototype small websites and interactive digital tools.

Community-Based Dental Hygiene Practitioner (Student) | Jan 2024 – Apr 2026

UBC; Union Gospel Mission; Pioneer Community Living Association; Elizabeth Fry Society

- Completed structured oral-health assessments and documentation with people experiencing social and structural barriers to care, following standardized protocols.
- Communicated complex health information in trauma-informed, culturally responsive settings.
- Collaborated with interdisciplinary teams to support referrals and continuity of care.

Oral Health Educator | Jan 2024 – Apr 2026

UBC; Skwo:Wech Elementary School; S.U.C.E.S.S. Simon KY Lee Care Home; Union Gospel Mission; Pioneer Community Living Association; Elizabeth Fry Society

- Delivered evidence-informed oral-health education, adapting explanations and activities for different audiences while maintaining guideline fidelity.
- Supported preventive outreach initiatives, including clinics and free oral-cancer screenings, by sharing clear, actionable information.

Operations Executive, Programs & Events | Sep 2025–Present

Vancouver Coworking Atelier Society (nonprofit)

- Coordinate event logistics and documentation, including venues, schedules, merchandise, and program materials.

- Contribute to inclusive, STEAM-focused networking events aligned with community and organizational goals.

EDUCATION

Bachelor of Dental Sciences (Dental Hygiene) | Sep 2022 – May 2026

University of British Columbia, Faculty of Dentistry

Relevant coursework: Oral Epidemiology; Health Policy and Advocacy; Preventive and Community Health; Professionalism; Statistics.

AWARDS & RECOGNITION

- **Marilyn Dionne Teed Memorial Award:** Honours the memory of Marilyn Dionne Teed and is awarded to a graduating dental hygiene student who demonstrates outstanding integrity, dedication, loyalty, and perseverance during their undergraduate years.
- **Eureka: QuestScapes — Project Funding:** Secured over $2,000 in combined seed funding and project support to develop the platform.

EDUCATION, LEADERSHIP & PRESENTATIONS

- **Academic Dental Careers Fellowship Program Fellow** — *American Dental Education Association (ADEA).* Co-facilitated motivational interviewing instruction and interprofessional orientation.
- **Poster and Oral Presenter** — *Canadian Oral Health Summit.* Presented work evaluating fellowship activities and learner outcomes.
- **Dental Hygiene Representative** — *2025 Healthcare Travelling Roadshow, North Shore.* Represented dental hygiene and shared career pathways and oral-health education with youth across Northern BC.
- **Booth Representative** — *Canadian Society for Disability and Oral Health, Pacific Dental Conference.* Shared accessibility and disability-inclusive care strategies.
- **Inaugural Dental Hygiene Representative** — *Student Professionalism & Ethics Association in Dentistry, UBC.* Contributed to equity-driven, ethics-informed student leadership.
- **Peer Mentor** — *UBC Faculty of Dentistry.* Mentored 53 junior students on study strategies and academic readiness.
